

MAX PLANCK LAW

#FUTUREOFLAW

#FUTUREOFLAW BARCAMP

Thursday, 7 November 2024, 13:00 - 18:00

Max Planck Institute for Innovation and Competition,
Marstallplatz 1, 80539 Munich

What impact will technology and digitalisation have on the law? Is artificial intelligence a game changer? If so, what role can – or must – the law play? What legal questions does the climate crisis raise? How should the welfare state respond to the pressing social problems of our time? Join researchers from the Max Planck Law network to discuss these current and future challenges for legal studies at the #FUTUREOFLAW BarCamp. Seize the day and get to know the researchers from our network. We look forward to meeting and engaging with you.

The #FUTUREOFLAW BarCamp is a unique opportunity for undergraduate and graduate students in and around Munich studying law or an adjacent field. Join researchers from the Max Planck Law network to discuss tomorrow's important topics and learn from the cutting-edge research currently underway at the Max Planck Society's various institutes for legal studies.

Max Planck Law

Max Planck Law is a network of the nine Max Planck Institutes engaging in legal research. We are united by intra- and interdisciplinary openness and a strong focus on comparative and transnational research questions. Together, we run one of the world's largest programmes for doctoral students and postdocs in law. More information at <https://law.mpg.de>
